STEP ONE

DOWNLOAD THE DNG FILES TO YOUR PHONE

Most mobile presets you purchase (including ours) will come as DNG files that you can download directly to your phone. 

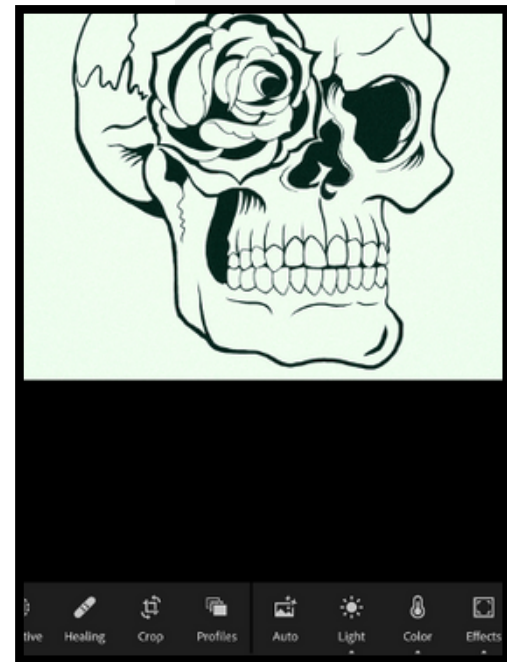

STEP TWO

IMPORT THE PRESET FILES INTO THE LIGHTROOM APP

At this point you should have all of your DNG files saved to your phone. These serve as “preset carriers” and now you just need to add them to Lightroom mobile and save presets out of them.

OPEN THE LIGHTROOM APP AND ADD YOUR PHOTO

tip: You can share your photodirectly from your gallery [on iPhone]. Simply click the  share button on the lower left side, and choose LR Mobile from the scroll bar.

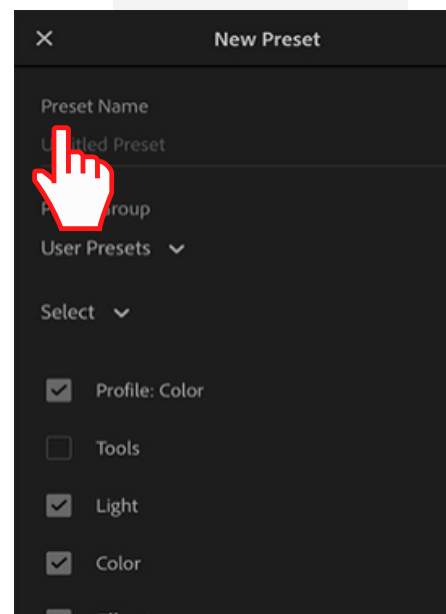

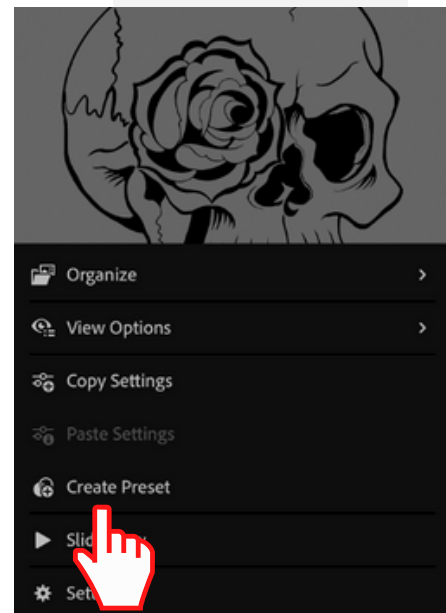

STEP THREE

CREATE AND SAVE YOUR PRESETS

Tap on the 3 dots icon at the top right of the screen and then tap on Create Preset 

YOU WILL SEE THE NEW PRESET SCREEN (SHOWN BELOW) WHICH CONTAINS ALL THE OPTIONS YOU CAN USE TO CUSTOMIZE YOUR PRESET. 

YOU WILL SEE THE NEW PRESET SCREEN (SHOWN BELOW) WHICH CONTAINS ALL THE OPTIONS YOU CAN USE TO CUSTOMIZE YOUR PRESET. YOU CAN GIVE YOUR PRESET A NAME (HIGHLY RECOMMENDED) AND ADD IT INTO A PRESET GROUP IN LIGHTROOM. YOU CAN SAVE IT IN USER PRESETS OR YOU CAN CREATE A NEW PRESET GROUP AND NAME IT HOWEVER YOU LIKE. WE RECOMMEND THIS IF YOU HAVE A LOT OF PRESETS AND WANT TO KEEP THEM ORGANIZED. WHEN YOU'RE DONE WITH THE SETTINGS SAVE YOUR PRESET BY TAPPING ON THE CHECKMARK ICON AT THE TOP RIGHT CORNER. 

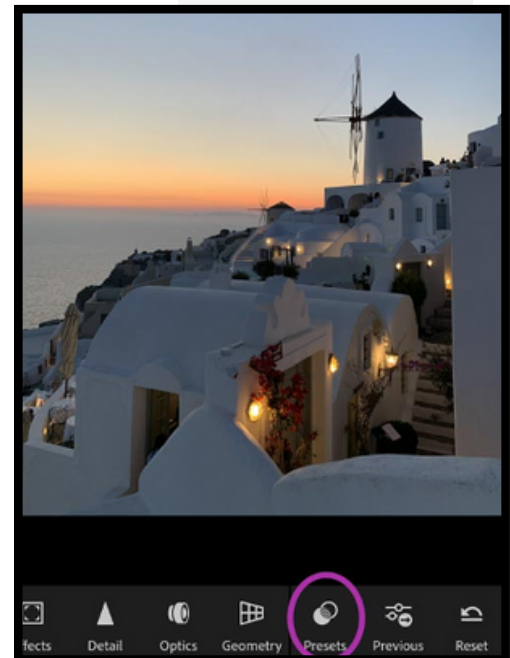

TIME TO ENJOY YOUR NEW PRESET!

A FEW TIPS ON USING LIGHTROOM MOBILE PRESETS

- To use your new presets just go back into your library and open any photo you'd like to edit.
- Find the Presets icon in the menu at the bottom of the screen and tap on it. Make sure the Preset Group that's selected is the one where you saved your new presets. If you saved them in the User Presets group, select that.
- Now you can edit the photo by tapping on a preset from the list and then tapping on the checkmark. You can still continue to edit the photo and make adjustments if you like, after you've applied the preset.

AND THAT'S IT! NOW YOU KNOW HOW TO INSTALL, SAVE AND USE YOUR LIGHTROOM MOBILE PRESETS ON YOUR PHONE!
